

# Clinical trials of Bupropion

TrialResults-center [www.trialresultscenter.org](http://www.trialresultscenter.org)

## 1 obesity and overweight

Trial	Treatments	Patients	Trials design and methods
<b>Bupropion vs placebo</b>			
<a href="#">Anderson , 2002</a> n=105/112 follow-up: 24 weeks	bupropion SR 300, or 400 mg/d. versus placebo	obese adults	double-blind
<a href="#">Croft , 2002</a> n=210/213 follow-up: 44 weeks	Bupropion, 300 mg for 44 wk versus Placebo	patients with major depression responder to open-label treatment with bupropion SR	double-blind
<a href="#">Jain , 2002</a> n=213/209 follow-up: 26 weeks	bupropion SR 300 mg/d versus Placebo	Obese adults (body mass index, 30 to 44 kg/m(2)) not currently meeting criteria for major depression but with depressive symptoms (Beck Depression Inventory score 10-30)	double-blind
