

# Clinical trials of Footpump (adjunctive therapy)

TrialResults-center [www.trialresultscenter.org](http://www.trialresultscenter.org)

## 1 thrombosis prevention

| Trial  | Treatments  | Patients  | Trials design and methods |
|--|---|---|---------------------------|
| <b>Footpump (adjunctive therapy) vs UFH then aspirin</b>     |   |   |                           |
| <b>Stannard (vs UFH+asp) , 1996</b><br>n=25/25<br>follow-up: | intermittent pulsatile pneumatic-pump compression of the plantar venous plexus<br>versus<br>UFH followed by aspirin | patients undergoing elective total hip replacement arthroplasty | Parallel groups<br>open   |

More details and results :

- mechanical devices for thromboprophylaxis for thrombosis prevention in all type of patients at <http://www.trialresultscenter.org/go-Q402>
