

Clinical trials of Reviparin

TrialResults-center www.trialresultscenter.org

1 acute myocardial infarction

Trial	Treatments	Patients	Trials design and methods
Reviparin vs placebo			
CREATE , 2005 n=7780/7790 follow-up: 30 d	Reviparin 34366871 IU BID for 7 d (weight adjusted) versus placebo	patients with acute myocardial infarction, STEMI or new LBBB, <=12 h	Parallel groups Double-blind

More details and results :

- antithrombotics for acute myocardial infarction in all type of patients at <http://www.trialresultscenter.org/go-Q36>

CREATE, 2005:

Yusuf S, Mehta SR, Xie C, Ahmed RJ, Xavier D, Pais P, Zhu J, Liu L Effects of reviparin, a low-molecular-weight heparin, on mortality, reinfarction, and strokes in patients with acute myocardial infarction presenting with ST-segment elevation. JAMA 2005;293:427-35 [[15671427](#)]

2 DVT prophylaxis

Trial	Treatments	Patients	Trials design and methods
reviparin vs control			
Wirth , 2001 n=117/122 follow-up: 7-10 days	reviparin 1,750 anti Xa IU Sc once daily for 7-10 days versus no treatment	elective knee arthroscopy	Parallel groups open (blind assesment) Germany
reviparin vs placebo			
Lassen , 2002 n=183/188 follow-up: 43 days	Reviparin 1750 IU versus Placebo	patients who required immobilization in a plaster cast or brace for at least five weeks after a leg fracture or rupture of the Achilles tendon	Parallel groups double-blind

continued...

Trial	Treatments	Patients	Trials design and methods
reviparin vs unfractionated heparin			
Kakkar , 1993 n=672/679	Reviparin 1750 anti Xa units versus UFH 10 000 units	General and gynaecological surgery	Blind

More details and results :

- antithrombotics for DVT prophylaxis in general surgery at <http://www.trialresultscenter.org/go-Q92>
- antithrombotics for DVT prophylaxis in arthroscopy at <http://www.trialresultscenter.org/go-Q150>
- heparin (UFH or LMWH) for DVT prophylaxis in general surgery at <http://www.trialresultscenter.org/go-Q195>
- LMWH for DVT prophylaxis in general surgery at <http://www.trialresultscenter.org/go-Q196>
- antithrombotics for DVT prophylaxis in patients with immobilization of the lower extremities at <http://www.trialresultscenter.org/go-Q405>

3 percutaneous coronary intervention

Trial	Treatments	Patients	Trials design and methods
reviparin vs UFH			
REDUCE , 1996 n=306/306 follow-up: 3 days	65279;Reviparin 7,000 IU anti-Xa versus UFH 10,000 IU bolus	PTCA with stable/unstable angina	Parallel groups double blind Europe and Canada

More details and results :

- antithrombotics for percutaneous coronary intervention in all type of patients at <http://www.trialresultscenter.org/go-Q63>
- anticoagulant for percutaneous coronary intervention in all type of patients at <http://www.trialresultscenter.org/go-Q388>

4 pulmonary embolism

Trial	Treatments	Patients	Trials design and methods
Reviparin vs unfractionated heparin			
COLOMBUS sub group , 1997 n=138/133 follow-up: 3 mo	Reviparin, 35006300 IU twice daily, 5 days versus Unfractionated heparin: bolus 5000 IU, infusion 1250 IU/h	patients with symptomatic DVT and associated pulmonary embolism	Parallel groups open

More details and results :

- antithrombotics for pulmonary embolism in all type of patients at <http://www.trialresultscenter.org/go-Q102>
