

# Clinical trials of anticoagulant

TrialResults-center [www.trialresultscenter.org](http://www.trialresultscenter.org)

## 1 acute myocardial infarction

| Trial   | Treatments   | Patients                                 | Trials design and methods       |
|---|--|--|---------------------------------|
| <b>any anticoagulant vs placebo</b>                                       |  |  |                                 |
| <b>Sixty Plus reinfarction Study , 1980</b><br>n=NA<br>follow-up: 2 years | anticoagulant<br>versus<br>placebo                         | over 60 years of age                     | Parallel groups<br>double blind |
| <b>any anticoagulant vs aspirin</b>                                       |  |  |                                 |
| <b>EPSIM , 1982</b><br>n=652/651<br>follow-up: 29 months<br>(range 6-59)  | anticoagulant<br>versus<br>aspirin 500mg three times daily | patients surviving myocardial infarction | Parallel groups<br>open         |

└ More details and results :
