

# Clinical trials of disopyramide

TrialResults-center [www.trialresultscenter.org](http://www.trialresultscenter.org)

## 1 atrial fibrillation

Trial	Treatments	Patients	Trials design and methods
<b>disopyramide vs placebo</b>			
<a href="#">Karlson , 1998</a> n=46/46 follow-up: 12 months	Disopyramide 500 mg/d versus placebo	Persistent AF between 6 weeks and 1 year	Parallel groups open
<a href="#">Lloyd (Disopyramide vs placebo) , 1984</a> n=29/25 follow-up: 6 months	Disopyramide 450 mg/d , versus placebo	Persistent AF lasting 1 month to 3 years	Parallel groups double blind
<b>disopyramide vs propafenone</b>			
<a href="#">PRODIS , 1996</a> n=31/25 follow-up: 6 months	Disopyramide 750 mg/d versus propafenone 900 mg/d	Persistent AF	Parallel groups double blind
<b>disopyramide vs quinidine</b>			
<a href="#">Lloyd (Disopyramide vs quinidine) , 1984</a> n=29/28 follow-up: 6 months	Disopyramide 450 mg/d , , versus placebo	Persistent AF lasting 1 month to 3 years	Parallel groups double blind

More details and results :

- antiarrhythmic drugs for atrial fibrillation in maintaining sinus rhythm after cardioversion at <http://www.trialresultscenter.org/go-Q113>
