

Clinical trials of nicorandil

TrialResults-center www.trialresultscenter.org

1 coronary artery disease

Trial	Treatments	Patients	Trials design and methods
nicorandil vs control			
Nishimura , 2009 n=NA follow-up: 2.7 years	nicorandil 15 mg daily versus control	Maintenance hemodialysis patients who underwent percutaneous coronary artery intervention and had complete coronary revascularization (absence of both restenosis and de novo coronary lesion) at coronary arteriography 6 months later	Parallel groups open Japan

More details and results :

- anti-anginal drugs for coronary artery disease in hemodialysis patients at <http://www.trialresultscenter.org/go-Q359>

References

Nishimura, 2009:

Nishimura M, Tokoro T, Nishida M, Hashimoto T, Kobayashi H, Imai R, Yamazaki S, Okino K, Iwamoto N, Takahashi H, Ono T Oral nicorandil to reduce cardiac death after coronary revascularization in hemodialysis patients: a randomized trial. Am J Kidney Dis 2009 Aug;54:307-17 [[19535190](#)] [10.1053/j.ajkd.2009.03.025](#)

2 percutaneous coronary intervention

Trial	Treatments	Patients	Trials design and methods
nicorandil vs control			
Nishimura , 2009 n=NA follow-up: 2.7 years	nicorandil 15 mg daily versus control	Maintenance hemodialysis patients who underwent percutaneous coronary artery intervention and had complete coronary revascularization (absence of both restenosis and de novo coronary lesion) at coronary arteriography 6 months later	Parallel groups open Japan
