

Clinical trials of cholesterol lowering intervention for cardiovascular prevention in patient with related disease

TrialResults-center www.trialresultscenter.org

1 ezetimibe

| Trial | Treatments | Patients | Trials design and methods |
|--|--|---|---------------------------------|
| ezetimibe vs placebo (on top statins) | | | |
| Enhance , 2008 n=357/363 follow-up: 24 months | ezetimibe 10mg + simvastatin daily versus simvastatin 80mg daily | patients with familial hypercholesterolemia | Parallel groups double blind |

2 statins

| Trial | Treatments | Patients | Trials design and methods |
|---|--|---|--|
| atorvastatin vs placebo | | | |
| SALTIRE , 2005 n=77/78 follow-up: 25 mo (7-36) | atorvastatin 80mg daily versus placebo | patients with calcific aortic stenosis | Parallel groups double blind |
| fluvastatin vs placebo | | | |
| ALERT , 2003 n=1050/1052 follow-up: 5.1 years | fluvastatin 40 mg daily versus placebo | renal transplant recipients with total cholesterol 4.0-9.0 mmol/L | Parallel groups double-blind Belgium, Denmark, Finland, Germany, Norway, |
| pravastatin vs placebo | | | |
| PREVEND IT , 2004 n=433/431 follow-up: 46 months | pravastatin 40 mg daily versus placebo | subjects with microalbuminuria | Factorial plan double blind the Netherlands |
| rosuvastatin vs placebo | | | |

continued...

| Trial | Treatments | Patients | Trials design and methods |
|--|---|--|---------------------------------|
| ASTRONOMER , 2010 [ISRCTN 32424163] n=134/135 follow-up: 3.5 y | rosuvastatin 40 mg daily versus placebo | asymptomatic patients with mild to moderate aortic stenosis and no clinical indications for cholesterol lowering | Parallel groups double blind |

3 statins+ezetimibe

| Trial | Treatments | Patients | Trials design and methods |
|--|--|---|---|
| ezetimibe+simvastatin vs placebo | | | |
| SEAS , 2008 [NCT00092677] n=944/929 follow-up: 52.2 mo | simvastatin 40mg plus ezetimibe 10 mg daily versus placebo | patients with mild-to-moderate, asymptomatic aortic stenosis | Parallel groups double blind Europe |

4 About TrialResults-center.org

TrialResults-center is an innovative knowledge database that collects the results of RCTs and provides dynamic interactive systematic reviews and meta-analysis in the field of all major heart and vessels diseases.

The TrialResults-center database provides a unique view of the treatment efficacy based on all data provided directly from clinical trial results, offering a valuable alternative to personal bibliographic search, published meta-analysis, etc. Furthermore, it would allow comparing easily the various concurrent therapeutic for the same clinical condition.

Rigorous meta-analysis method is used to populate TrialResults-center: widespread search of published and non published trials, study selection using pre-specified criteria, data extraction using standard form.

TrialResults-center is continually updated on a weekly basis. We continually search all new results (whatever their publication channel) and these news results are immediately added to the database with a maximum of 1 week.

TrialResults-center is non-profit and self-funded.
