

# Clinical trials of vasopressin for cardiac arrest in all type of patients

TrialResults-center [www.trialresultscenter.org](http://www.trialresultscenter.org)

## 1 vasopressin

Trial	Treatments	Patients	Trials design and methods
<b>vasopressin vs epinephrine</b>			
<b>Lindner , 1997</b> n=20/20 follow-up:	Vasopressin 40 U IV versus epinephrine 1 mg intravenously	patients in ventricular fibrillation resistant to electrical defibrillation	double blind 65279;Germany
<b>Li , 1999</b> n=40/43	Vasopressin, 0.5 U/kg (low dose) or 1.0 U/kg (high dose) versus epinephrine	-	China
<b>Lee , 2000</b> n=5/5	Vasopressin, 40 U (unknown route) versus epinephrine	-	na
<b>Stiell , 2001</b> n=104/96 follow-up:	Vasopressin, 40 U IV versus epinephrine 1 mg intravenously	adults who had cardiac arrest and required drug therapy	double blind Canada
<b>Wenzel , 2004</b> n=589/597 follow-up:	Vasopressin, 40 U IV versus epinephrine 1mg IV	adults who had had an out-of-hospital cardiac arrest	open Austria, Germany, Switzerland

## 2 About TrialResults-center.org

TrialResults-center is an innovative knowledge database that collects the results of RCTs and provides dynamic interactive systematic reviews and meta-analysis in the field of all major heart and vessels diseases.

The TrialResults-center database provides a unique view of the treatment efficacy based on all data provided directly from clinical trial results, offering a valuable alternative to personal bibliographic search, published meta-analysis, etc. Furthermore, it would allow comparing easily the various concurrent therapeutic for the same clinical condition.

Rigorous meta-analysis method is used to populate TrialResults-center: widespread search of published and non published trials, study selection using pre-specified criteria, data extraction using standard form.

TrialResults-center is continually updated on a weekly basis. We continually search all new results (whatever their publication channel) and these news results are immediately added to the database with a maximum of 1 week.

TrialResults-center is non-profit and self-funded.
