

Clinical trials of preconditioning for CABG surgery in all type of patients

TrialResults-center www.trialresultscenter.org

1 preconditioning

Trial	Treatments	Patients	Trials design and methods
remote ischemic preconditioning vs control			
Cheung , 2006 n=17/20 follow-up:	remote ischemic preconditioning versus control	children undergoing cardiac surgery for repair of congenital heart defects	open
Gunaydin , 2000 n=4/4 follow-up:	remote ischemic preconditioning versus control	patients undergoing coronary artery surgery	open
Hausenloy , 2007 [NCT00397163] n=NA follow-up:	-	patients undergoing elective coronary artery bypass graft surgery	single blind
remote ischemic preconditioning vs no RIPC			
Ali , 2007 n=NA follow-up:	remote ischemic preconditioning versus without RIPC	patients undergoing elective open abdominal aortic aneurysm repair	open
remote ischemic preconditioning vs sham procedure			
Meybohm ongoing [NCT00882622] n=NA follow-up: 30 days	Remote Ischemic Preconditioning versus sham procedure	patients undergoing cardiac surgery	Parallel groups double blind germany
Seoul ongoing [NCT00889811] n=NA follow-up: 72 hr	-	Patients Undergoing Off-Pump Coronary Artery Bypass Graft Surgery	Parallel groups double blind

2 About TrialResults-center.org

TrialResults-center is an innovative knowledge database that collects the results of RCTs and provides dynamic interactive systematic reviews and meta-analysis in the field of all major heart and vessels diseases.

The TrialResults-center database provides a unique view of the treatment efficacy based on all data provided directly from clinical trial results, offering a valuable alternative to personal bibliographic search, published meta-analysis, etc. Furthermore, it would allow comparing easily the various concurrent therapeutic for the same clinical condition.

Rigorous meta-analysis method is used to populate TrialResults-center: widespread search of published and non published trials, study selection using pre-specified criteria, data extraction using standard form.

TrialResults-center is continually updated on a weekly basis. We continually search all new results (whatever their publication channel) and these news results are immediately added to the database with a maximum of 1 week.

TrialResults-center is non-profit and self-funded.
