

Clinical trials of transcatheter aortic-valve implantation (TAVI) for aortic stenosis in all type of patients

TrialResults-center www.trialresultscenter.org

1 transcatheter aortic-valve implantation (TAVI)

Trial	Treatments	Patients	Trials design and methods
transcatheter aortic valve implantation vs standard therapy			
PARTNER , 2010 [NCT00530894] n=179/179 follow-up: 1.6 y (at least 1 year)	transcatheter aortic-valve implantation (TAVI)with Edwards SAPIEN Transcatheter Heart Valve versus standard therapy	patients with severe aortic stenosis considered not to be suitable candidates for surgery	Parallel groups open USA
transcatheter aortic valve implantation vs surgical valve replacement			
PARTNER cohort A , 2011 [NCT00530894] n=699 follow-up:	percutaneous valve implantation (Sapien device) versus surgical valve replacement	high risk, symptomatic patients with severe aortic stenosis	Parallel groups US, Canada, Germany
CoreValve US pivotal trial ongoing [NCT01240902] n=395/395 follow-up:	percutaneous valve implantation (Surgical Valve Replacement) versus conventional aortic-valve surgery	High Risk and Very High Risk Subjects Who Need Aortic Valve Replacement

2 About TrialResults-center.org

TrialResults-center is an innovative knowledge database that collects the results of RCTs and provides dynamic interactive systematic reviews and meta-analysis in the field of all major heart and vessels diseases.

The TrialResults-center database provides a unique view of the treatment efficacy based on all data provided directly from clinical trial results, offering a valuable alternative to personal bibliographic search, published meta-analysis, etc. Furthermore, it would allow comparing easily the various concurrent therapeutic for the same clinical condition.

Rigorous meta-analysis method is used to populate TrialResults-center: widespread search of published and non published trials, study selection using pre-specified criteria, data extraction using standard form.

TrialResults-center is continually updated on a weekly basis. We continually search all new results (whatever their publication channel) and these news results are immediately added to the database with a maximum of 1 week.

TrialResults-center is non-profit and self-funded.
