

Clinical trials of Selective estrogen receptor downregulators (SERDs) for advanced breast cancer (metastatic) in all type of patients

TrialResults-center www.trialresultscenter.org

1 fulvestrant + anastrozole

Trial	Treatments	Patients	Trials design and methods
fulvestrant + anastrozole vs anastrozole			
FACT (Bergh) , 2012 [NCT00256698] n=258/256 follow-up:	fulvestrant 500 mg intramuscular on day 1 and 250mg on days 15 and 29 and thereafter every fourth week 3 days, until proven progression or undue toxicity, in combination with anastrozole 1 mg orally per day versus anastrozole orally at 1 mg per day until proven progression or undue toxicity	first-line therapy for patients with receptor-positive postmenopausal breast cancer	open-label canada
Mehta(SWOG-S0226) , 2012 [NCT00075764] n=NA follow-up:	Fulvestrant was administered intramuscularly at a dose of 500 mg on day 1 and 250 mg on days 14 and 28 and monthly thereafter. versus 1 mg of anastrozole orally every day (group 1), with crossover to fulvestrant alone strongly encouraged if the disease progressed,	Postmenopausal women with previously untreated with hormone-receptor (HR)-positive	
GEICAM/2006-10 , 3000 <i>unpublished</i> [NCT00543127] n=NA follow-up:	500 mg Im Fulvestrant day 0, 250 mg days 14 and 28 (charge dose); later 250 mg each 28 days during 3 years plus 1 mg oral anastrozole per day during 5 years versus Anastrozole 1 mg daily for 5 years	Postmenopausal women with hormone receptor positive and negative Her2 tumours	open label spain
CDR0000349337 <i>ongoing</i> [NCT00075764] n=NA follow-up:	anastrozole + fulvestrant intramuscularly on days 1, 14, and 28 during course 1 and then on day 28 of the subsequent courses versus oral anastrozole once daily on days 1-28	first-line therapy in treating postmenopausal women with metastatic breast cancer	open label USA
fulvestrant + anastrozole vs exemestane			
SoFEa (Johnston) combination , 2012 [NCT00253422] n=NA follow-up:	Fulvestrant With Concomitant Anastrozole versus Exemestane	Postmenopausal Women With ER+ve Locally Advanced/Metastatic Breast Cancer Following Progression on Non-Steroidal Aromatase Inhibitors	

continued...

Trial	Treatments	Patients	Trials design and methods
9238UK/0005 (combination) <i>unpublished</i> [NCT00944918] n=NA follow-up:	-	postmenopausal locally advanced / metastatic breast cancer patients who have progressed on NSAIs	double-blind Korea

2 fulvestrant alone

Trial	Treatments	Patients	Trials design and methods
fulvestrant 250mg vs anastrozole			
0020 (Howell) , 2002 n=NA follow-up:	fulvestrant 250 mg as a once-monthly (one x 5 mL) intramuscular injection versus oral dose of anastrozole 1 mg	-	open-label
Xu et al. , 2011 [NCT00327769] n=121/113 follow-up:	fulvestrant 250 mg/month versus 1 mg/day anastrozole	receptor positive postmenopausal advanced breast cancer.	double-blind china

continued...

Trial	Treatments	Patients	Trials design and methods
0021 (Osborne) , 2002 [NCT00635713] n=NA follow-up:	intramuscular injection of fulvestrant 250 mg once monthly versus daily oral dose of anastrozole 1 mg	postmenopausal women with advanced breast cancer	double-blind
A011106 <i>ongoing</i> [NCT01953588] n=NA follow-up:	fulvestrant 500 mg IM, Days 1 and 15 of Cycle 1 and Day 1 of Cycles 2-6, every 4 weeks for 6 cycles versus anastrozole 1 mg daily by mouth, Days 1-28, every 4 weeks for 6 cycles	Postmenopausal Patients With Stage II-III Breast Cancer Undergoing Surgery	open label
fulvestrant 250mg vs exemestane			
9238UK/0005 (fulvestrant alone) <i>unpublished</i> [NCT00944918] n=NA follow-up:	fulvestrant Intramuscular injection on days 1, 15, and 29 and then once monthly until disease progression versus exemestane oral, once daily until disease progression.	postmenopausal locally advanced / metastatic breast cancer patients who have progressed on NSAIs	double-blind Korea
SoFEa (Johnston) fulvestrant alone , 2012 [NCT00253422] n=NA follow-up:	fulvestrant intramuscularly (IM) on days 1, 15, and 29 and then once monthly versus exemestane once daily	Postmenopausal Women With ER+ve Locally Advanced/Metastatic Breast Cancer Following Progression on Non-Steroidal Aromatase Inhibitors	Parallel groups UK
fulvestrant 250mg vs exemestane			
EFECT (Chia) <i>unpublished</i> [NCT00065325] n=NA follow-up:	Fulvestrant 500 mg (2 x 5 mL, im injections) administered as a loading dose on Day 0, followed by 250 mg (1 x 5 mL) on Day 14, Day 28 and monthly (ie, 28 3 days) thereafter. versus Exemestane 25 mg administered once daily by mouth (po) from Day 0.	hormone receptor positive postmenopausal women with advanced breast cancer	double-blind
fulvestrant 250mg vs tamoxifen			
0025 (Howell) , 2004 n=313/274 follow-up:	fulvestrant 250 mg, via intramuscular injection, once monthly; versus tamoxifen 20 mg, orally, once daily	advanced breast cancer in postmenopausal women previously untreated with endocrine therapy	double-blind
9238IL/0025 <i>unpublished</i> [NCT00241449] n=NA follow-up:	-	first-line treatment for postmenopausal women with advanced breast cancer.	double-blind USA

4 About TrialResults-center.org

TrialResults-center is an innovative knowledge database that collects the results of RCTs and provides dynamic interactive systematic reviews and meta-analysis in the field of all major heart and vessels diseases.

The TrialResults-center database provides a unique view of the treatment efficacy based on all data provided directly from clinical trial results, offering a valuable alternative to personal bibliographic search, published meta-analysis, etc. Furthermore, it would allow comparing easily the various concurrent therapeutic for the same clinical condition.

Rigorous meta-analysis method is used to populate TrialResults-center: widespread search of published and non published trials, study selection using pre-specified criteria, data extraction using standard form.

TrialResults-center is continually updated on a weekly basis. We continually search all new results (whatever their publication channel) and these news results are immediately added to the database with a maximum of 1 week.

TrialResults-center is non-profit and self-funded.
