

# Clinical trials of immune checkpoint inhibition for lung cancer (metastatic) in first line

TrialResults-center [www.trialresultscenter.org](http://www.trialresultscenter.org)

## 1 IO + CT

Trial	Treatments	Patients	Trials design and methods
<b>atezolizumab + platinum-based CT vs platinum-based CT</b>			
<b>IMpower 132</b> <i>ongoing</i> [NCT02657434] n=NA follow-up:	Atezolizumab + Carboplatin or Cisplatin + Pemetrexed versus Carboplatin or Cisplatin + Pemetrexed)	Participants Who Are Chemotherapy-Naive and Have Stage IV Non-Squamous Non-Small Cell Lung Cancer (NSCLC) (IMpower 132)	Open Label
<b>IMpower 133</b> <i>ongoing</i> [NCT02763579] n=NA follow-up:	Atezolizumab + Carboplatin + Etoposide versus Placebo + Carboplatin + Etoposide	Participants With Untreated Extensive-Stage Small Cell Lung Cancer	Participant, Investigator
<b>pembrolizumab + CT vs platinum-based CT</b>			
<b>Keynote 407</b> , 2018 [NCT02775435] n=278/281 follow-up: 7?7 mo (median)	pembrolizumab + carboplatin and paclitaxel or nano particle albumin-bound paclitaxel (nab-paclitaxel) versus carboplatin and paclitaxel or nano particle albumin-bound paclitaxel (nab-paclitaxel)	adults with first line metastatic squamous non-small cell lung cancer	Parallel groups open-label

## 2 About TrialResults-center.org

TrialResults-center is an innovative knowledge database that collects the results of RCTs and provides dynamic interactive systematic reviews and meta-analysis in the field of all major heart and vessels diseases.

The TrialResults-center database provides a unique view of the treatment efficacy based on all data provided directly from clinical trial results, offering a valuable alternative to personal bibliographic search, published meta-analysis, etc. Furthermore, it would allow comparing easily the various concurrent therapeutic for the same clinical condition.

Rigorous meta-analysis method is used to populate TrialResults-center: widespread search of published and non published trials, study selection using pre-specified criteria, data extraction using standard form.

TrialResults-center is continually updated on a weekly basis. We continually search all new results (whatever their publication channel) and these news results are immediately added to the database with a maximum of 1 week.

TrialResults-center is non-profit and self-funded.
